

Vanuatu

CDSHS runs a unique service learning programme with their sister school, the Pango Centre School, in Vanuatu. This programme has been running since 2006. Students travel to Vanuatu biennially and assist the Pango school in rebuilding and maintenance as well as contribute to projects such as The Library Project. Donations from Australia build much-needed libraries in small villages who do not have much access to information. Our students learn about the culture and become more aware about the world around them. They see what a difference they can make to others. Our school also welcomes the Pango School on visits to CDSHS.
